

Attachment E

Eastern Hills Drive

Landscaping with a buffer zone
between the road and the
walking trail and the individual
properties.

Landscaping and buffer
zone between the town home
apartments and the road and the
walking trail.

The picture is our backyard. The dotted line is the property line. It appears that the road connecting to the road behind our homes will be pretty much a straight line from behind the existing homes on Calahan.

The picture is from our back yards facing the
new extension of Eastern Hills Drive.

The dotted line is our property line.

The stars indicate where the construction people have created
a road in the field.

The dotted line indicates the edge of our property. The walking trail will be adjacent to our property line. No buffer zone or landscaping.

The edge of our property line. The stars indicate the created road used by the construction people.
