Dear Scott Annis and Theresa Perry:

On behalf of Council Bluffs, IA, I am proud to announce our commitment to become a SolSmart-designated community. In partnership with the SolSmart team, Council Bluffs' dedicated staff members will work to improve solar market conditions, making it faster, easier, and more affordable for our residents and businesses to install solar energy systems. These efforts will also increase the efficiency of local processes related to solar development, which may save our local government time and money.

Council Bluffs will leverage SolSmart to achieve the following goals:

- Create a 10-year sustainability master plan to include City goals and objects to decrease energy, water and fossil fuel use along with Greenhouse gas emissions by 2030 while also increasing reuse and recycling of materials.
- Enact policies to remove barriers and support the installation of sustainable, clean energy.
- Engage the community and surrounding areas to encourage clean energy practices.

These efforts demonstrate that our community is committed to driving continual improvement in our solar market, and in the process of doing so, all the related areas identified as community priorities in our relevant plans or initiatives.

In order to measure progress along the way, Council Bluffs will track key metrics related to solar energy deployment, such as installed solar capacity and the number of installations across sectors.

In these efforts, we call on our residents, businesses, non-profits, and others to get involved, and we invite everyone to stay tuned by visiting www.councilbluffs-ia.gov/solar

Inquiries related to Council Bluffs' SolSmart participation can be directed to communications contact at bgarrett@councilbluffs-ia.gov

Sincerely,

SOLAR STATEMENT
