Doors 215, 314 and 414 are required to be 45 minutes per 713.13.3
Stair tower doors required to be 90 minute rated per table 716.5
Per the 2015 IFC commentary for section 1020.6 on corridor continuity:
When an elevator opens into a corridor that is required to be of fire-resistance-rated construction, the opening between the elevator shaft and the corridor must be protected to meet not only the shaft□s fire protection rating but also the additional smoke and draft protection to limit the spread of smoke into the corridor.
Since the elevator in the R-2 opens to a required rated corridor, additional measures must be taken to smoke seal the elevator shaft.

EXHIBIT 'F' – PROJECT NARATIVE

Project Information

Applicant: PHS Council Bluffs, Inc. (Owner), by its affiliate and agent, Senior Housing Partners, LLC (SHP)

Project Name: Prairie Gate

Project Address: 16 Valley View Drive
Council Bluffs, IA 51503

Ownership:

The project is owned and operated by PHS Council Bluffs Inc. PHS Management; LLC (PHSM) is the manager of the campus. Senior Housing Partners, LLC (SHP) provided the project development from planning and entitlements through construction and installation of furnishings, staff training and start up and resident occupancy and all marketing activities. Senior Lifestyle Design, LLC (SLD) provided interior design. The Owner, SHP, PHSM, and SLD are all controlled affiliates of Presbyterian Homes and Services (PHS).

Community Program Outline:

Independent Living, Assisted Living, Assisted Living Memory Care, Care Center including a Memory Care neighborhood, and a Town Center.

Project Location:

The project is located east of downtown Council Bluffs, on Valley View Drive, just south of Iowa Western Community College and north of New Horizon Presbyterian Church. It is located on 17.5 acres of land.

To reflect its rolling prairie environs and differentiate itself from other senior communities, the project evokes prairie style architecture. The community has a welcoming, landscaped entrance. Upon entry, residents and guests are able to see through the building to a landscaped gathering space that brings nature indoors.

Vision + Objectives

- Motto: Creating smiles in the eyes of the people we serve
- Mission: to enrich the lives and touch the hearts of older adults
- Vision: to provide more choices and opportunities for older adults to live well
- Objectives:
    - Meet the housing needs of the Council Bluffs community
    - Connectivity between the housing types to build community identity
    - Provide choices of dining venues and menu options
    - Create inviting outdoor spaces
    - Bring nature indoors through thoughtful design
    - Build in an architectural style that befits the site and surroundings
    - Exercise good stewardship of resources and operational integrity

Development Summary

The development of this campus is on 17.5 acres purchased from New Horizon Presbyterian Church, our neighbor to the south. The church provides synergy for programming, a volunteer base, and a source of future project residnets as members of their congregation age. The site plan reflects this important connection with a driveway between the church and campus as well as a sidewalk for ease of movements. Market analysis shows a demand for all types of senior housing with the most need in the skilled care center. Planning for this project was extensive, as as SHP/PHS evaluated the best mix of housing types, architectural style, program needs and offerings, affordability of rents and future growth needs.

The campus is a "Full Continuum," which offers all levels of care and housing from independent living to skilled care center. This allows residents to stay within the campus and maintain connections with their friends and the staff members that they have come to know. It creates ease for spouses to visit should one of them need a higher level of care whether temporary or permanent. The full continuum campus approach creates a strong, connected community.

Following our motto of "Freedom to live well," the campus offers open restaurant style dining hours, menu choices and the ability to provide "cook to order" options. A bistro venue offers snacks, sandwiches and soups in casual setting. The club room, library, media room provide opportunities for social interaction. The central Hearth Room and Community Rooms offer campus wide gathering spaces for special events and programs as well as a chapel for services of many denominations.

The PHS trademarked Wings Wellness center provides cardio and weight equipment for strength and cardio, as well as a fitness and a Wellness Studio for group classes such as yoga, balance and stretching. This program keeps residents

healthier and reduces risk for falls. A space for programming various activities provides a welcoming setting for interaction and education and fun. The memory care assisted living floor includes dining, living and activity spaces as well as an outdoor secured garden. Memory care is also offered in the skilled care center and includes similar spaces.

The care center is set up in neighborhoods so residents can enjoy a home setting with living rooms, family space, with staff nearby and involved. The outdoor feature areas provide experiences with color and scents which aresoothing to enjoy whether moving through or observing from a window. Prairie plantings create seasonal changes and attract birds and butterflies that are interesting to observe. Surface parking is conveniently located close to entries with garage parking for the independent residents.

The soils on this site required compaction through a surcharge. The surcharge was placed upon completion of grading when the building pads were at final elevations. Further information on Project Components and Unit Mix follow.

Project Components

Town Center

The Town Center consists of approximately 21,000 square feet of program space located on two levels. Program areas include entry lobby with view through to exterior, dining areas, bistro, commercial kitchen serving the entire campus, community room, salon, Wings Wellness and Fitness, Independent club room, library, media, mail room, administrative offices, conference rooms, a guest suite, and all back of house service and receiving spaces.

Living Units

Independent Living (IL):

- Approximately 36 apartments and lobby are located in a three-story stick-framed configuration over one-story of structured parking. Each apartment has washer & dryer and balcony. Additional storage space is available for a fee.

Assisted Living [AL and Memory Care (MC):

- 24 AL units are located on the second level of a two-story stick-framed configuration. Dining and activity spaces are located adjacent in town center.
- 18 MC units are located on the first level containing dining, living, activity and secured outdoor space within the neighborhood.
- Surface Parking is integrated with the landscaping.

Care Center (CC):

- 72 Care Center beds are located within a twostory light gauge steel at grade building. The Care Center is arranged in four neighborhoods, each containing program spaces, including but not limited to activity, living room with fireplace, dining rooms, laundry, bathing 'spa' room, support rooms, nurse's station and a Physical Therapy/Occupational Therapy Suite. The CC also contains an administrative suite, conference rooms, a reception area, and elevator lobby with adjacent lounges and parlor as well as a memory care dedicated household consisting of 18 beds.

Site + Landscape Design:

- Porte Cocheres /Main front door at Town Center, secondary front door at Care Center
- Bring nature elements and natural daylight in through large windows.
- Outdoor pathways, water feature, and gardens are important elements of wellness.
- MC Center + Garden - planters, planting & hardscape, furnishings, material selection
- Service Courtyard - isolate service activities as much as possible
- Site Master Plan - site layout contemplates future phases, circulation for residents, families, emergency responders provided, connection to New Horizon Church included. Plantings of prairie representing native setting are interspersed throughout.

Future Phase:

- A Future Phase of approximately 36 IL apartments are master planned for the site and will connect to the Phase 1 building. This will also be three levels of living units over one level of parking garage above grade (matching Phase 1 IL wing). There will also be a 24 Unit Brownstone building that is separate from the main facility to the south. This will be two levels of units over one level of parking garage above grade.

- The Future Phase will be acknowledged during project approvals for density purposes.
