Resolution 24-304
ITEM 3.C.

Council Action: 11/4/2024

Description

Resolution accepting the work of Rife Construction, Inc. as complete and authorizing the release of retainage after 30 days if no claims are filed in connection with the Central Fire Station Chiller and Electrical Service Replacement. Project #BM-23-08

Background/Discussion

Central Fire Station was constructed in 1972, and a 100 ton chiller using R-22 refrigerant was installed to provide chilled water to the air handlers in the building. The chiller was past its useful life and was rapidly deteriorating. A leak was discovered that could not be fixed and would have led to a complete failure of the system. With R-22 refrigerant being obsolete all major repairs required the system to be updated to handle newer refrigerants.

A 1000 amp electric service and main distribution panel were also installed in 1972 to provide power for the building. This equipment was past its useful life and was found to be no longer supported by the manufacturer. Any failure in the distribution side of the panel would have left portions of the building without power.

The work for this project included the replacement of the chiller plant which consisted of the evaporator, pumps, air cooled condenser and other associated chiller components, the relocation of the chiller from inside the building and on the roof of the building to the ground on the west side of the building, the installation of a glycol loop and heat exchanger to safely bring the chilled water into the building, and the replacement of the 1000 amp electric service and main distribution panel.

There was one change order for this project totaling \$14,624.30. The change order was to switch the main electrical equipment to equipment that could be readily obtained and prevent delays in the install of the chiller and other components.

	<u>Total</u>
Original Contract Amount	\$670,515.00
Change Orders (2%)	\$14,624.30
Final Contract Amount	\$685,139.30
Less Previous Payments	\$650,882.33
Retainage Due Contractor	\$34,256.97

This project was added to the CIP and identified as BM-23-08 with funding from ARPA Revenue Loss Funds. The total cost of this project was \$749,879.29 which includes \$64,739.99 for professional services provided by HGM and Engineering Technologies Inc.

Recommendation

Approval of this resolution to accept the work of Rife Construction Inc., release the retainage, and approve the use of ARPA Revenue Loss funds for all project expenses. This project included the replacement of equipment that had failed and equipment that was no longer supported by the manufacturer to provide the continued uninterrupted operation of the Central Fire Station.

ITEM 4.A.

Council Action: 11/4/2024

Description

Resolution approving the plans, specifications, form of contract and cost estimate for the UP Museum Rooftop Mechanical. Project #BM-25-05

Background/Discussion

The Council Bluffs Carnegie Free Public Library was renovated in 2002 and the Union Pacific Railroad Museum has occupied the building since May of 2003. The two rooftop air handling units have been in place since the renovation. Both have had multiple components replaced in the last few years including one receiving a new fan and motor assembly. These items must be maintained in order to provide continued use of the facility.

This project includes installing a new coil assembly and the replacement of other wearable components inside the unit with the new motor and fan assembly and full replacement of the second unit.

The repairs will allow for proper conditioning of the building spaces.

The estimated cost of this project is \$137,700.00 which includes \$10,200 for professional services provided by ETI. The project is included in the FY25 CIP with funding from GO Bonds.

The project schedule is as follows:	Hold Public Hearing	November 4, 2024
	Bid Letting	December 3, 2024
	Award	December 16, 2024
	Construction End	May 1, 2025

Recommendation

Approval of this resolution. This project includes repairs necessary for the continued use of the facility.

ITEM 4.B.

Council Action: 11/4/2024

Description

Resolution approving the plans, specifications, form of contract and cost estimate for Mid-America Center Cooling Towers. Project #BM25-02

Background/Discussion

The cooling towers for the Mid-America Center arena and convention center were installed when the building was new in 2002. The cooling towers are part of the facilities cooling system, and are used to disperse heat created by the chillers for the building. The cooling towers have reached the end of their useful life and are deteriorating. This deterioration causes sediment to build up in the system which slows the water flow. The sediment can plug the evaporator stopping water flow completely. This also causes the feed pipes within the tower to wear out, which makes compartments in the tower unusable. The reduced efficiency and continued deterioration of the system will lead to failures of the cooling tower shells leaving the system without the ability to cool the facility.

The work includes replacement of the cooling towers, associated piping, pump motors, controls, wiring, the addition of a grit separator to reduce future issues within the system, and the addition of variable frequency drives to modulate the pump motors to increase the efficiency of the system and reduce operating costs. The new towers will have the lower sections made of stainless steel and the piping that is replaced outside will be HDPE material to prevent the future need for replacement.

The estimated cost of this project is \$799,825.00 which includes \$52,325.00 for professional services provided by ETI. The project is included in the FY25 CIP with funding from GO bonds and the General Fund - Gaming.

The project schedule is as follows:	Hold Public Hearing	November 4, 2024
	Bid Letting	December 3, 2024
	Award	December 16, 2024
	Construction End	April 1, 2025

Recommendation

Approval of this resolution. This project includes the replacement of the cooling towers and the addition of energy efficient equipment to provide the continued use of the facility, and to reduce utility costs.

Council Action: 11/4/2024

Description

Resolution approving the plans, specifications, form of contract and cost estimate for the State Orchard Road Reconstruction. Project #PW25-07

Background/Discussion

State Orchard Road is in need of reconstruction. The project extends approximately 2,500 feet in length, from Eastern Hills Drive to Steven Road. The existing street segment is a 22-foot wide rural section located within a 66-foot right-of-way. State Orchard Road pavement is in poor condition with no shoulders and open ditches for drainage. There are no pedestrian pathways.

The project will construct a new curbed concrete roadway with storm sewer and a trail on the west side of the roadway. Completing this segment of State Orchard Road will provide an improved roadway and trail connection from Eastern Hills Drive to Steven Road.

This project was included in the FY25 CIP and includes a budget of \$3,000,000 in Local Option Sales Tax funds.

The project schedule is as follows:	Hold Public Hearing	November 4, 2024

City of Council Bluffs, Iowa

INTRODUCTION

The Bluffs Center I Urban Renewal Plan ("Plan" or "Urban Renewal Plan") for the Bluffs Center I Urban Renewal Area ("Area" or "Urban Renewal Area") was originally adopted in 1969 and has been amended a number of times since then. This Plan is being further amended by this 2024 Amendment to the Plan ("Amendment") to add to the list of proposed urban renewal projects to be undertaken within the Urban Renewal Area.

No land is being added to or removed from the Urban Renewal Area by this Amendment. Accordingly, the previously established "base value" or "base valuation" of the Urban Renewal Area (if any) will remain unchanged by this Amendment.

Except as modified by this Amendment, the provisions of the original Urban Renewal Plan are hereby ratified, confirmed, and approved and shall remain in full force and effect as provided herein. In case of any conflict or uncertainty, the terms of this Amendment shall control. Any subsection of the Plan not mentioned in this Amendment shall continue to apply to the Plan.

AREA DESIGNATION

The Urban Renewal Area was initially designated as a blighted area. This Amendment makes no change to the designation of the Urban Renewal Area.

DEVELOPMENT PLAN

The Urban Renewal Plan, as amended, and this Amendment, are in conformity with the Bluffs Tomorrow: 2030 Comprehensive Plan, adopted in 2014 and amended in 2015, which is the City's general plan for the development of the City as a whole.

This Amendment does not in any way replace or modify the City's current land use planning or zoning regulation process. Any need for improved traffic, public transportation, public utilities, recreational and community facilities, or other public improvements within the Urban Renewal Area is set forth in the Plan.

ELIGIBLE URBAN RENEWAL PROJECTS
(2024 Amendment)

In addition to projects previously authorized in the Plan, the eligible urban renewal projects under this 2024 Amendment include:

1. ***Housing Development in Blighted Areas:*** The City anticipates using Tax Increment Financing (“TIF”) to facilitate and incentivize the redevelopment of blighted properties within the Urban Renewal Area for housing. The activities undertaken as part of this project may include property acquisition, the demolition and clearance of structures to prepare properties for redevelopment, site preparation activities such as grading, marketing acquired properties for development of housing, and related activities. The City may directly undertake these actions, or may provide grants to private developers or local economic development organizations to incentivize and support these actions. The City anticipates this project will be continued over a number of years and will involve multiple properties. The City may advance funding for this project from available City funds and seek reimbursement through TIF for the fund that the advance was paid from, or may incur other debts or obligations for this project that will be certified for TIF reimbursement. The City expects that it will not utilize more than \$2,000,000 of TIF revenues for any particular redevelopment project undertaken as part of this urban renewal project. Overall, the City’s costs for this project to be reimbursed using TIF is not expected to exceed \$10,000,000.

2. ***Planning, engineering fees (for urban renewal plans), attorney fees, administration, other related costs to support urban renewal projects and planning:***

Project	Estimated Date	Estimated Cost to be funded by TIF Funds
Fees and Costs	Undetermined	Not to exceed \$50,000

FINANCIAL DATA

1.	July 1, 2024 constitutional debt limit:	\$353,847,216
2.	Current outstanding general obligation debt:	\$71,190,000
3.	Proposed amount of indebtedness to be incurred: A specific amount of debt to be incurred for the Eligible Urban Renewal Projects (2024 Amendment) has not yet been determined. This document is for planning purposes only. The estimated project costs in this Amendment are estimates only and will be incurred and spent over a number of years. In no event will the City’s constitutional debt limit be exceeded. The City Council will consider each project proposal on a case-by-case basis to determine if it is in the City’s best interest to participate before approving an urban renewal project or expense. Subject to the foregoing, it is estimated that the City’s costs for the Eligible Urban Renewal Projects (2024 Amendment) as described above will be approximately as stated in the next column.	\$10,050,000 This does not include financing costs related to debt issuance, which may be incurred over the life of the Area.

URBAN RENEWAL FINANCING

The City intends to utilize various financing tools, such as those described below to successfully undertake the proposed urban renewal actions. The City has the statutory authority to use a variety of tools to finance physical improvements within the Area, as amended. These include:

A. **Tax Increment Financing.**

Under Section 403.19 of the *Code of Iowa*, urban renewal areas may utilize the tax increment financing mechanism to finance the costs of public improvements, economic development incentives or other urban renewal projects. Upon creation of a tax increment district within the Area, by ordinance, the assessment base is frozen and the amount of tax revenue available from taxes paid on the difference between the frozen base and the increased value, if any, is segregated into a separate fund for the use by the City to pay costs of the eligible urban renewal projects. Certain increased taxes generated by any new development, above the base value, are distributed to the taxing entities, if not requested by the City, and in any event upon the expiration of the tax increment district.

B. **General Obligation Bonds.**

Under Division III of Chapter 384 and Chapter 403 of the *Code of Iowa*, the City has the authority to issue and sell general obligation bonds for specified essential and general corporate purposes, including the acquisition and construction of certain public improvements within the Area, as amended, and for other urban renewal projects or incentives for development consistent with this Plan, as amended. Such bonds are payable from the levy of unlimited ad valorem taxes on all the taxable property within the City. It may be the City will elect to abate some or all of the debt service on these bonds with incremental taxes from this Area, as amended.

The City may also determine to use tax increment financing to provide incentives such as cash grants, loans, tax rebates or other incentives to developers or private entities in connection with the urban renewal projects identified in the Plan, as amended. In addition, the City may determine to issue general obligation bonds, tax increment revenue bonds or such other obligations, or loan agreements for the purpose of making loans or grants of public funds to private businesses located in the Area for urban renewal projects. Alternatively, the City may determine to use available funds for making such loans or grants or other incentives related to urban renewal projects. In any event, the City may determine to use tax increment financing to reimburse the City for any obligations or advances.

Nothing herein shall be construed as a limitation on the power of the City to exercise any lawful power granted to the City under Chapter 15, Chapter 15A, Chapter 403, Chapter 427B, or any other provision of the *Code of Iowa* in furtherance of the objectives of the Plan.

Section 2. This Council further finds:

a) Although relocation is not expected, a feasible method exists for the relocation of any families who will be displaced from the Urban Renewal Area into decent, safe and sanitary dwelling accommodations within their means and without undue hardship to such families;

b) The Plan, as amended, and the 2024 Amendment conform to the general plan for the development of the City as a whole; and

d. The acquisition of the area is necessary to provide for the construction of housing for low and moderate income families.

ii. Non-residential use is expected and with reference to any portions thereof which are to be developed for non-residential uses, such non-residential uses are necessary and appropriate to facilitate the proper growth and development of the City in accordance with sound planning standards and local community objectives.

That the Urban Renewal Area, as amended, continues to be a blighted area within the meaning of Chapter 403, Code of Iowa; that such area is eligible for designation as an urban renewal area and otherwise meets all requisites under the provisions of Chapter 403, Code of Iowa; and that the rehabilitation, conservation, redevelopment, development, or a combination thereof, of such area is necessary in the interest of the public health, safety or welfare of the residents of this City.

Section 4. That 2024 Amendment to the Bluffs Center I Urban Renewal Plan of the City of Council Bluffs, State of Iowa, attached hereto as Exhibit 1 and incorporated herein by reference, be and the same is hereby approved and adopted as the "2024 Amendment to the Bluffs Center I Urban Renewal Plan for the City of Council Bluffs, State of Iowa"; the Amendment, including all of the exhibits attached thereto, is hereby in all respects approved; and the City Clerk is hereby directed to file a certified copy of the Amendment with the proceedings of this meeting.

City of Council Bluffs, Iowa

INTRODUCTION

The West Broadway Urban Renewal Plan (“Plan” or “Urban Renewal Plan”) for the West Broadway Urban Renewal Area (“Area” or “Urban Renewal Area”) was originally adopted in 1987 by the City of Council Bluffs, Iowa (“City”), and has been amended and updated several times. This Plan is being further amended by this 2024 Amendment to the Plan (“Amendment” or “2024 Amendment”) to add to the list of proposed urban renewal projects to be undertaken within the Urban Renewal Area.

No land is being added to or removed from the Urban Renewal Area by this Amendment. Accordingly, the previously established “base value” or “base valuation” of the Urban Renewal Area (if any) will remain unchanged by this Amendment.

Except as modified by this Amendment, the provisions of the original Urban Renewal Plan are hereby ratified, confirmed, and approved and shall remain in full force and effect as provided herein. In case of any conflict or uncertainty, the terms of this Amendment shall control. Any subsection of the Plan not mentioned in this Amendment shall continue to apply to the Plan.

AREA DESIGNATION

The Urban Renewal Area was initially designated as a blighted area. This Amendment makes no change to the designation of the Urban Renewal Area.

DEVELOPMENT PLAN

The Urban Renewal Plan, as amended, and this Amendment, are in conformity with the Bluffs Tomorrow: 2030 Comprehensive Plan, adopted in 2014 and amended in 2015, which is the City’s general plan for the development of the City as a whole.

This Amendment does not in any way replace or modify the City’s current land use planning or zoning regulation process. Any need for improved traffic, public transportation, public utilities, recreational and community facilities, or other public improvements within the Urban Renewal Area is set forth in the Plan.

ELIGIBLE URBAN RENEWAL PROJECTS
(2024 Amendment)

In addition to projects previously authorized in the Plan, the eligible urban renewal projects under this Amendment include:

1. ***Housing Development in Blighted Areas:*** The City anticipates using Tax Increment Financing (“TIF”) to facilitate and incentivize the redevelopment of blighted properties within the Urban Renewal Area for housing. The activities undertaken as part of this project may include property acquisition, the demolition and clearance of structures to prepare properties for redevelopment, site preparation activities such as grading, marketing acquired properties for development of housing, and related activities. The City may directly undertake these actions, or may provide grants to private developers or local economic development organizations to incentivize and support these actions. The City anticipates this project will be continued over a number of years and will involve multiple properties. The City may advance funding for this project from available City funds and seek reimbursement through TIF for the fund that the advance was paid from, or may incur other debts or obligations for this project that will be certified for TIF reimbursement. The City expects that it will not utilize more than \$2,000,000 of TIF revenues for any particular redevelopment project undertaken as part of this urban renewal project. Overall, the City’s costs for this project to be reimbursed using TIF is not expected to exceed \$10,000,000.

2. ***Planning, engineering fees (for urban renewal plans), attorney fees, administration, other related costs to support urban renewal projects and planning:***

Project	Estimated Date	Estimated Cost to be funded by TIF Funds
Fees and Costs	Undetermined	Not to exceed \$50,000

FINANCIAL DATA

1.	July 1, 2024 constitutional debt limit:	\$353,847,216
2.	Current outstanding general obligation debt:	\$71,190,000
3.	Proposed amount of indebtedness to be incurred: A specific amount of debt to be incurred for the Eligible Urban Renewal Projects (2024 Amendment) has not yet been determined. This document is for planning purposes only. The estimated project costs in this Amendment are estimates only and will be incurred and spent over a number of years. In no event will the City’s constitutional debt limit be exceeded. The City Council will consider each project proposal on a case-by-case basis to determine if it is in the City’s best interest to participate before approving an urban renewal project or expense. Subject to the foregoing, it is estimated that the City’s costs for the Eligible Urban Renewal Projects (2024 Amendment) as described above will be approximately as stated in the next column.	\$10,050,000 This does not include financing costs related to debt issuance, which may be incurred over the life of the Area.

URBAN RENEWAL FINANCING

The City intends to utilize various financing tools, such as those described below to successfully undertake the proposed urban renewal actions. The City has the statutory authority to use a variety of tools to finance physical improvements within the Area, as amended. These include:

A. **Tax Increment Financing.**

Under Section 403.19 of the *Code of Iowa*, urban renewal areas may utilize the tax increment financing mechanism to finance the costs of public improvements, economic development incentives or other urban renewal projects. Upon creation of a tax increment district within the Area, by ordinance, the assessment base is frozen and the amount of tax revenue available from taxes paid on the difference between the frozen base and the increased value, if any, is segregated into a separate fund for the use by the City to pay costs of the eligible urban renewal projects. Certain increased taxes generated by any new development, above the base value, are distributed to the taxing entities, if not requested by the City, and in any event upon the expiration of the tax increment district.

B. **General Obligation Bonds.**

Under Division III of Chapter 384 and Chapter 403 of the *Code of Iowa*, the City has the authority to issue and sell general obligation bonds for specified essential and general corporate purposes, including the acquisition and construction of certain public improvements within the Area, as amended, and for other urban renewal projects or incentives for development consistent with this Plan, as amended. Such bonds are payable from the levy of unlimited ad valorem taxes on all the taxable property within the City. It may be the City will elect to abate some or all of the debt service on these bonds with incremental taxes from this Area, as amended.

The City may also determine to use tax increment financing to provide incentives such as cash grants, loans, tax rebates or other incentives to developers or private entities in connection with the urban renewal projects identified in the Plan, as amended. In addition, the City may determine to issue general obligation bonds, tax increment revenue bonds or such other obligations, or loan agreements for the purpose of making loans or grants of public funds to private businesses located in the Area for urban renewal projects. Alternatively, the City may determine to use available funds for making such loans or grants or other incentives related to urban renewal projects. In any event, the City may determine to use tax increment financing to reimburse the City for any obligations or advances.

Nothing herein shall be construed as a limitation on the power of the City to exercise any lawful power granted to the City under Chapter 15, Chapter 15A, Chapter 403, Chapter 427B, or any other provision of the *Code of Iowa* in furtherance of the objectives of the Plan.

EFFECTIVE PERIOD

This Amendment will become effective upon its adoption by the City Council and will remain in effect until it is repealed by the City Council. Notwithstanding anything to the contrary in the

Plan, any prior amendment, resolution, or document, the Plan, as amended, shall remain in effect until terminated by the City Council.

The use of incremental property tax revenues, or the “division of revenue,” as those words are used in Chapter 403 of the *Code of Iowa*, will be consistent with Chapter 403 of the Iowa Code. Nothing in this Amendment shall alter the duration of the division of revenue as previously explained in the Plan.

REPEALER AND SEVERABILITY CLAUSE

Any parts of the Plan or prior amendments to the Plan in conflict with this Amendment are hereby repealed.

If any part of this Amendment or the Plan, as previously amended, is determined to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the validity of the Amendment or the Plan, as previously amended, as a whole, or any part of the Amendment or the Plan, as previously amended, not determined to be invalid or unconstitutional.

WHEREAS, in accordance with the notice, all persons or organizations desiring to be heard on the proposed 2024 Amendment, both for and against, have been given an opportunity to be heard with respect thereto and due consideration has been given to all comments and views expressed to this Council in connection therewith and the public hearing has been closed.

NOW, THEREFORE, BE IT RESOLVED, BY THE CITY COUNCIL OF THE CITY OF COUNCIL BLUFFS, STATE OF IOWA:

Section 1. That the findings and conclusions set forth or contained in the 2024 Amendment concerning the area of the City of Council Bluffs, State of Iowa, described in the preamble hereof, be and the same are hereby ratified and confirmed in all respects as the findings of this Council for this area.

Section 2. This Council further finds:

a) Although relocation is not expected, a feasible method exists for the relocation of any families who will be displaced from the Urban Renewal Area into decent, safe and sanitary dwelling accommodations within their means and without undue hardship to such families;

b) The Plan, as amended, and the 2024 Amendment conform to the general plan for the development of the City as a whole; and

c) Acquisition by the City is not immediately expected, however, as to any areas of open land to be acquired by the City included within the Urban Renewal Area:

i. Residential use is expected and with reference to those portions thereof which are to be developed for residential uses, this City Council hereby determines that a shortage of housing of sound standards and design with decency, safety and sanitation exists within the City; that the acquisition of the area for residential uses is an integral part of and essential to the program of the municipality; and that one or more of the following conditions exist:

a. That the need for housing accommodations has been or will be increased as a result of the clearance of slums in other areas, including other portions of the urban renewal area.

b. That conditions of blight in the municipality and the shortage of decent, safe and sanitary housing cause or contribute to an increase in and spread of disease and crime, so as to constitute a menace to the public health, safety, morals, or welfare.

c. That the provision of public improvements related to housing and residential development will encourage housing and residential development which is necessary to encourage the retention or relocation of industrial and commercial enterprises in this state and its municipalities.

d. The acquisition of the area is necessary to provide for the construction of housing for low and moderate income families.

ii. Non-residential use is expected and with reference to any portions thereof which are to be developed for non-residential uses, such non-residential uses are necessary and appropriate to facilitate the proper growth and development of the City in accordance with sound planning standards and local community objectives.

Section 3. That the Urban Renewal Area, as amended, continues to be a blighted area within the meaning of Chapter 403, Code of Iowa; that such area is eligible for designation as an urban renewal area and otherwise meets all requisites under the provisions of Chapter 403, Code of Iowa; and that the rehabilitation, conservation, redevelopment, development, or a combination thereof, of such area is necessary in the interest of the public health, safety or welfare of the residents of this City.

Section 4. That the 2024 Amendment to the West Broadway Urban Renewal Plan of the City of Council Bluffs, State of Iowa, attached hereto as Exhibit 1 and incorporated herein by reference, be and the same is hereby approved and adopted as "2024 Amendment to the West Broadway Urban Renewal Plan for the City of Council Bluffs, State of Iowa"; the Amendment, including all of the exhibits attached thereto, is hereby in all respects approved; and the City Clerk is hereby directed to file a certified copy of the Amendment with the proceedings of this meeting.

Section 5. That, notwithstanding any resolution, ordinance, plan, amendment or any other document, the Amendment shall be in full force and effect from the date of this Resolution until the Council amends or repeals the Plan. The proposed Amendment shall be forthwith certified by the City Clerk, along with a copy of this Resolution, to the Recorder for Pottawattamie County, Iowa, to be filed and recorded in the manner provided by law.

Section 6. That all other provisions of the Plan not affected or otherwise revised by the terms of the Amendment, as well as all resolutions previously adopted by this City Council related to the Plan be and the same are hereby ratified, confirmed and approved in all respects.

Resolution 24-311
ITEM 4.F.

Council Action: 11/4/2024

Description

Resolution approving the plans, specifications, form of contract and cost estimate for the WPCP Centrifuge Replacement. Project #PW24-18

Background/Discussion

The centrifuge at the Water Pollution Control Plant (WPCP) is used to process digested sludge for bio-solids production. Centrifugal thickening and dewatering of sewage sludge is a high speed process that uses the force from rapid rotation of a cylindrical bowl to separate wastewater solids from liquid to produce a non-liquid material referred to as “cake.” Dewatering wastewater solids reduces the volume of residuals, improves operation, and reduces costs for subsequent storage, processing, and disposal.

The facility operates with one centrifuge, with a second model as back-up. Both existing centrifuges have manufacture dates from the mid-1990s, and are now having reliability issues. One was recently removed from service due to poor operation. The cost to repair the unit cannot be justified, given its age and obsolescence. The excessive unit vibration and noticeable wear has expedited the need for a replacement.

The replacement equipment will increase resiliency and sustainability of the treatment process. The new centrifuge will produce the same class of bio-solids and use the existing screw conveyor and polymer feed systems.

This project was included in the FY24 CIP, and project costs will be paid with Sewer funds and GO Bonds. The engineer’s estimate for construction is 1,209,500, including assignment of the centrifuge procurement contract which totaled \$448,000.

The project schedule is as follows:	Hold Public Hearing	November 4, 2024
	Bid Letting	December 3, 2024
	Award	December 16, 2024
	Construction End	May 31, 2025

Approval of this resolution authorizing the WPCP Centrifuge Replacement project to be advertised for bids.

Ordinances 6615, 6616, 6617 and 6618
ITEM 5.A.

Council Action: 11/4/2024

Description
Ordinances amending 4 separate sections of Title 15: Zoning of the Municipal Code (Zoning Ordinance) by amending Chapters 15.16, 15.17, 15.32A and 15.33 with regard to signs.

Background/Discussion
The City’s Legal Department as given a directive by a member of the City Council to review the zoning code with relation to temporary business signs. While certain signs are currently allowed for advertising a business, it was their opinion that the code did not go far enough to accommodate the needs of business owners to be able to advertise their business on their own property. Legal worked with the Mayor’s office and the Planning Division to craft changes to the code that make it easier for businesses to advertise using signs that are subject to certain restrictions on such matters as size, placement and duration while, at the same time, protecting the City’s right-of-way and overall aesthetics of the community as a whole.
These changes are presented here for your review and include revisions to existing sections of the zoning ordinance relative to ‘Prohibited Signs’, ‘West Broadway Corridor Design Overlay’, ‘C-3/Commercial District’, ‘C-4/Commercial District’, and a new Section 15.33.090(F) under ‘Temporary Signs’. Since these code changes are the result of a directive from the Council, City staff maintains a neutral position on the proposed changes and will defer to the decisions made by both this Commission and the City Council.
The Council Bluffs Planning and Zoning Commission held a public hearing on the request for these proposed changes to the zoning code on October 8, 2024, but was unable to pass any motion approving or denying the request.

Recommendation
Approval is recommended.

Resolution 24-313
ITEM 6.A.

Council Action: 11/4/2024

Description

Resolution permitting Police Officer Staffing in the Police Department to temporarily exceed 121 officers.

Background/Discussion

Staffing for the Police Department was increased from 118 to 121 sworn officers pursuant to Resolution Number 22-116 on April 25, 2022. Despite this increase, the Police Department has never reached a full staffing strength of 121.

Since April of 2022, Police Department has routinely been understaffed by approximately 6 to 8 officers. To address these staffing shortages, the Police Department vastly improved its recruitment strategies and worked with the Civil Service Commission to make the processes to certify Police Officer eligibility lists timelier and more efficient.

The aforementioned changes to recruitment strategies and Civil Service processes are anticipated to enable the hiring of enough officers to attain full staffing by the end of 2024. However, the Police Department is facing the impending retirement of a large number of officers. Anticipated retirements are determined by reviewing current seniority lists and identifying officers who have reached the eligible age to collect a pension benefit (i.e., 55) and the number of service years (i.e., 30) to receive the maximum pension benefit. (see **Table 1**) Reviewing the number of actual retirements and separations illustrates that more people actually retire than anticipated because some individuals choose to leave once they are eligible to collect, but fall short of 30 years of service or they separate prior to collecting a pension (e.g., disability, resignations, etc.). (see **Table 2**)

Unfortunately, retirements and separations do not align with the timing of new Police Officer hiring and training thereby preventing the Police Department from ever maintaining a full staffing strength when achieved. Permitting the Police Department to have flexibility to temporarily exceed its staffing strength will support public safety, contribute to reductions in overtime, increase officer wellness, and enable the Police Department to achieve and maintain a full staffing strength of 121 officers.

It is critical for the Police Department to have the ability to temporarily exceed staffing strength in the Police Department by no more than 4 officers whenever within a period of 12 months the Police Department will expect to lose a significant number of officers to retirement or separation. This ability to temporarily exceed staffing would commence immediately upon execution of this resolution.

Recommendation

Chief Matt Davis recommends that Council approve this resolution.
